Learning Points

The Simple Present vs. The Present Continuous

You use the Simple Present tense to talk about a routine or a specific action that happens regularly.

You can use expressions of frequency like *every day* or *always* with the Simple Present.

You use the Present Continuous tense to talk about an action happening right now. You can also use the Present Continuous to talk about events that **are happening** soon. You make the Present Continuous with the verb **to be + -ing**.
